In addition, it includes 1 ea Utilis USA Peaked SM5 (Vestibule) with Insulated Liner and Thermal Fly, 2 ea Hard Doors, and 1 ea "Y" Environmental Control Unit (ECU) Duct.	\$43,599.97

- The Utilis shelter system is a rapidly deployable soft shelter that incorporates a unique external folding-frame design and an optional internal liner system integrated with the outer fabric.
- Utilis has successfully passed:
 - 55 mph wind sustained for 30 minutes with three 10 second bursts of 65 mph
 - Two inches per hour of wind driven rain sustained for 30 minutes
 - 50 erect/strike cycles
 - 10 lbs per sq ft of snow load sustained for 12 hours
 - 100-meter naked eye, 300-meter night vision goggle and ingress/egress blackout and did not require the interior liner
- The optional internal liner has an integrated air conditioning plenum pre-installed.
- Optional electrical package is available on request.
- The removable floor is made from a heavy weight material to stand up to harsh conditions in the field and remains integral to external fabric via a novel sandwiched Velcro design to reduce set-up time.
- Fabric: Tactical PVC fabric coated membrane per Mil Std 44103
- Color: Desert Tan or Olive Drab
- Stove pipe installation kits are available
- The optional internal liner stays integral to the external fabric of the shelter to greatly reduce the shelter set-up and "under canopy" time.
- The shelter is packaged into three carry "bags" that make it easy to transport and very man-portable.
- All of the Utilis shelter systems have the capability to complex to one another and to other shelters currently in the military inventory.
